Mirrodin What a revelation!I've always used the standard supplied silicone tips with my earbuds, but when one went missing recently I thought I'd give something else a try. And what a revelation! They're more comfortable, better sounding, better fitting, better sound isolating than the silicone tips. Mr. P. Mitchell I missed the smoke alarmOk so I have denon in-ears and I thought I'd give these a shot, put them in a few mins ago and Jesus Christ the sound quality is insane. As for noise cancellation I couldn't hear the smoke alarm for burnt toast so that's an ambiguous win. J Whyman Image not available forColour: To view this video download Flash Player
